Rack Rear Detail

I.T.I. Inc. designed and installed the structured cable system, LAN, WAN, and PBX telephone system depicted here at Means Industries' E. Washington Road Corporate Headquarters in Saginaw, Michigan.

Included were:

- Fiber optic backbone to the plant floor
- 230 category 5 cables supporting LAN, Async data, Telephones, and ISDN BRI
- 160 Ethernet 10/100-base-T switched and shared LAN ports
- Voice and data wide area network servicing 4 remote locations
- 5 location PBX with centralized voice mail
